PROFILE

A highly motivated Third-year Information Technology student aiming to make headway in the male-dominated IT industry through perseverance. I believe hands-on skills are essential in today's world hence I made it my mandate from freshman year to get the skills and knowledge I can acquire through Industry experience.

EDUCATION

Ghana Communication Technology University

Location, Accra

Major/Degree // BSc Information Technology

December 2021 –

Relevant Courses // Programming (C++, HTML, JAVA), Microcomputer Systems, IT Law, Computational Math, Computer Architecture, Algorithms and Data Structures

EDUCATION

Ghana Communication Technology University

Accra

- Compiled, cleaned, and applied the use of data sets to analyze businesses using Information Systems to evaluate the results of an application to a given scenario, hence developing my analytical skills.
- Presented and conducted peer review processes to evaluate approaches to Information Technology ethical scenarios, making me conversant with International Information Technology Laws and building my rapport with my peers.
- Developing my programming knowledge by constantly practicing and brushing on my C++, HTML, and JAVA skills along with the modules I have been taught, such as Microcomputer systems, Computational Math, Discrete structures, and many more.
- My knowledge of Algorithms and data structures has equipped me with the skills to understand and select appropriate algorithms for solving a range of problems and as a result write efficient codes.
